

October 28, 2020

Dear Program Directors and Residents,

I hope this letter finds all of you safe and well in this continuing challenging and trying time. The ACR<sup>®</sup> AIRP<sup>®</sup> continues to monitor the coronavirus outbreak and make decisions in the best interests of our attendees, lecturers, and staff.

We value and care about your educational experience and believe strongly in the importance of Radiologic-Pathology correlation. We want to assure you that the ACR<sup>®</sup> AIRP Radiologic-Pathology Correlation Courses scheduled for the remaining 2020 academic year will occur. After careful consideration of the current environment, travel restrictions, and contemplating projections for the course of the disease, we recognize the need to extend our virtual adaptation of our delivery of the resident educational content for the February/March and March/April 2021 Courses

- February 8-March 5, 2021 Virtual AIRP Course
- March 15-April 9, 2021 Virtual AIRP Course

We will keep you advised as to the specifics of the program and platform for courses held in the 2021 and 2022 academic years, as they are finalized on our website (<https://www.airp.org/resident-courses/four-week-course>). In addition, all previously published course dates for the 2021-2022 academic years will be adhered to, also listed on our [website](#).

We thank you in advance for your patience and understanding as we carefully proceed in this new living, learning, and teaching environment.

A PROGRAM OF THE  
AMERICAN COLLEGE OF RADIOLOGY

Stay safe, and be well!

With Kind Regards,

*Mark D. Murphey M.D.*
